

MEDICAL CODING

Engineering the Structural Logic of Clinical Documentation & Healthcare Revenue

A project-first certification designed to master ICD-10-CM, CPT, and HCPCS Level II classification systems. Turn complex medical narratives into the universal language of healthcare.

THE EDLANX METHODOLOGY

OUR CODING PHILOSOPHY

At Edlanx, we don't just "assign numbers"; we cultivate a Nosology Architect's mindset. Our program is a deep dive into the anatomical and legal logic of clinical data. We believe in Revenue Integrity — moving beyond basic memorization to build a robust understanding of medical necessity, regulatory compliance, and the structural governance required for global healthcare systems.

THE FOUR PILLARS OF MASTERY

-  **Diagnostic Logic** Master the structural classification of diseases and injuries (ICD-10-CM).
-  **Procedural Governance** Learn the logic of surgical and medical services coding (CPT).
-  **Regulatory Architecture** Master the structural lifecycle of HIPAA compliance and medical auditing.
-  **Analytical Strategy** Bring accuracy to life by mastering the structural link between physician documentation and insurance reimbursement.

Table of Contents

Program Overview

The Edlanx Methodology

Our Development Philosophy

The Edlanx Advantage

01

The Coding Blueprint: Medical Terminology & Anatomy

1.1 Etymological Logic

1.2 Anatomical Governance

02

Diagnostic Architecture: ICD-10-CM Classification

2.1 Alphanumeric Structural Logic

2.2 Tabular & Alpha-Index Governance

2.3 Clinical Sequencing Strategy

2.4 Combination & Manifestation Logic

03

Procedural Logic: CPT & HCPCS Level II

3.1 Evaluation & Management (E/M) Structural Logic

3.2 Surgical Package Governance

3.3 Integumentary & Musculoskeletal Architecture

3.4 Cardiovascular & Respiratory Strategy

3.5 Modifier Governance (The 2-Digit Logic)

3.6 HCPCS Level II & Supply Infrastructure

04

Anatomy Logic: Cardiovascular & Respiratory Systems

4.1 Hemodynamic Structural Logic

4.2 Pulmonary Architecture & Gas Exchange

4.3 Systemic Pathophysiology Strategy

05

Specialty Architecture: Radiology, Pathology & Anesthesia Coding

5.1 Imaging & Diagnostic Structural Logic

5.2 Pathology & Lab Governance

06

Safety Governance: HIPAA, Fraud, & Abuse Prevention

6.1 Privacy Structural Logic (HIPAA)

6.2 Security & Encryption Governance

6.3 Compliance Architecture (Fraud vs. Abuse)

6.4 False Claims Act Strategy

6.5 Internal Audit Infrastructure

6.6 OIG Work Plan Governance

6.7 Disclosures & Breach Logic

07

Revenue Cycle Logic: Claims Processing & Denial Management

7.1 Front-End Structural Logic

7.2 Adjudication Governance

7.3 Denial Architecture & Appeals

08

Auditing Architecture: Inpatient (ICD-10-PCS) vs. Outpatient Logic

8.1 Inpatient Procedural Logic (PCS)

8.2 DRG Governance & Case Mix

8.3 Prospective Payment Strategy

09

Toolsets Logic: Encoding Software & Abstracting Systems

9.1 Logic-Based Encoding

9.2 Computer-Assisted Coding (CAC) Governance

9.3 Electronic Health Record (EHR) Infrastructure

10

Financial Logic: Value-Based Care & HCC Coding

10.1 Risk Adjustment Logic (HCC)

10.2 Value-Based Governance

10.3 Payer Mix Strategy

11

Regulatory Infrastructure: CMS Guidelines & Payer Policy Management

11.1 CMS National & Local Coverage (NCD/LCD)

11.2 Correct Coding Initiative (CCI) Governance

11.3 Federal Regulatory Blueprinting

12

Future Frontiers: AI-Driven Computer-Assisted Coding (CAC)

12.1 NLP & Automation Structural Logic

12.2 Predictive Risk Governance

WHY CHOOSE EDLANX

01 Industry-Ready Curriculum

We move beyond basic code-lookup to bridge the gap between clinical narratives and global financial reimbursement. Our Medical Coding syllabus is a deep immersion into ICD-10-CM, CPT, and HCPCS Level II — the exact technical pillars used by hospitals, insurance payers, and global RCM firms to ensure financial integrity.

02 Real-Time Corporate Exposure

Step into a professional healthcare-IT environment at our Bangalore Operational Center. At Edlanx, you won't just memorize codes; you will be treated as a Revenue Architect, working in simulated EHR environments to master clinical abstraction, navigate NCCI edits, and manage the structural integrity of a clean claim.

03 Mentorship & Continuous Assessment

Your growth is guided by senior CPC/COC Certified Coders and Revenue Managers through structured mentoring and performance evaluations. We focus on developing your ability to defend medical necessity, troubleshoot complex surgical cases, and translate raw physician documentation into precise, legally defensible alphanumeric data.

04 Skill Mastery & Performance Incentives

Master industry-standard encoding software and Natural Language Processing (NLP) tools while learning essential professional competencies. We believe in experiential learning and reward breakthroughs in coding accuracy or denial reduction with performance-based stipends, ensuring you remain focused on industrial excellence.

05 **Global Career Readiness**

We enhance your employability by focusing on the Revenue Lifecycle, from initial patient encounter and specialty coding to final claim adjudication and denial management. Our career guidance includes mock "Coding Audits" and technical interviews tailored for top-tier roles in Quality Assurance, HIM Management, and Clinical Documentation Improvement (CDI).

06 **Collaborative Engineering Community**

Join a supportive culture built on transparency, technical integrity, and disciplined ethics. You will learn to lead a "coding sprint," collaborate across clinical and administrative domains, and grow your network within an elite community of healthcare-IT professionals and revenue specialists.

07 **Verified Professional Certifications**

At Edlanx, we don't just issue certificates for attendance; we award them based on verified learning, real-world performance, and practical outcomes. Our credentials are proof of your industry-ready skills and are recognized by institutions and recruiters worldwide.

We provide four distinct levels of certification:

- **Internship Completion Certificate:** Validates your exposure to professional work culture, verified internship hours, and task-based mentorship.
 - **Project Completion Certificate:** Proof of your hands-on implementation and problem-solving skills in real-world industry projects.
 - **Training Completion Certificate:** Issued upon mastering our industry-aligned curriculum and passing skill-based assessments.
 - **Certificate of Excellence:** A prestigious award reserved for top-performing candidates who demonstrate an advanced understanding.
-

Why This Journey Matters

- ▶ **Portfolio-Ready** Every complex surgical case you abstract and every diagnostic sequence you architect at Edlanx serves as a high-fidelity demonstration of your ability to safeguard the financial health of global medical institutions with absolute precision.
- ▶ **Global Network** Gain exclusive access to the Edlanx alumni community and industry mentors leading Revenue Cycle Management (RCM) teams at top-tier hospitals, insurance payers, and healthcare-IT giants.
- ▶ **Career Excellence** We move beyond simple data entry to provide the deep regulatory logic and nosology governance needed to bridge the gap between medicine and finance — ensuring that healthcare providers are fairly reimbursed for the life-saving work they perform.

This course is a living ecosystem. We constantly update our curriculum to reflect the latest shifts in CMS regulatory updates, the annual ICD-10/CPT revisions, and the rapid integration of AI-driven Computer-Assisted Coding (CAC). Your success is our shared mission.

DIRECT MENTORSHIP

Engineering healthcare data and managing revenue logic requires absolute alphanumeric precision and legal integrity. Whether you are navigating a complex "Excludes1" note, troubleshooting an NCCI edit failure, or defending a high-value claim against a payer denial, our senior CPC/COC Certified Mentors and Revenue Managers provide the direct, technical feedback needed to ensure your coding is accurate, compliant, and industrially ready.
