

CRM ARCHITECTURE

Engineering the Structural Logic of Salesforce & Customer Success

A project-first certification designed to master Cloud Infrastructure, Apex Logic, and the structural engineering of enterprise-scale CRM systems.

THE EDLANX METHODOLOGY

OUR SALESFORCE PHILOSOPHY

At Edlanx, we don't just teach "data entry"; we cultivate a solution-first mindset. Our program is a deep dive into the logic of how businesses scale using cloud ecosystems. We believe in Operational Precision — moving beyond basic record-keeping to build robust, automated environments that unify sales, service, and marketing into a single, high-performance structural flow.

THE FOUR PILLARS OF MASTERY

- ◀ **Administrative Logic** Master the core architecture of objects, relationships, and security protocols.
- ◀ **Declarative Engineering** Learn the structural logic of Flow Builder and Lightning App Builder to automate complex business processes.
- ◀ **Programmatic Logic** Understand the engineering of Apex, Triggers, and Lightning Web Components (LWC).
- ◀ **Data Architecture** Bring your CRM to life by mastering large-scale data modeling, migration logic, and integration standards.

Table of Contents

Program Overview

The Edlanx Methodology

Our Development Philosophy

The Edlanx Advantage

01

The CRM Blueprint

1.1 Cloud Architecture

1.2 Ecosystem Navigation

02

Object Architecture

2.1 Data Modeling Logic

2.2 Relationship Architecture

2.3 Schema Integrity & Normalization

2.4 Global Picklist & Metadata Logic

03

Access & Security Governance

3.1 Identity Logic

3.2 Record-Level Architecture (OWDs)

3.3 Role Hierarchy Engineering

3.4 Sharing Rule Logic

3.5 Manual & Apex Sharing

3.6 Field-Level Security (FLS)

04

Declarative Automation: Flow Builder

- 4.1 Workflow Logic
- 4.2 Advanced Flow Architecture
- 4.3 Error Handling & Fault Paths

05

Data Integrity: Validation & Formulas

- 5.1 Mathematical Rules
- 5.2 Validation Logic

06

Programmatic Architecture: Apex

- 6.1 OOP Principles & Logic
- 6.2 Trigger Framework Architecture
- 6.3 Context Governance
- 6.4 Governor Limit Architecture
- 6.5 DML & SOQL Logic
- 6.6 Unit Testing & Code Integrity
- 6.7 Exception Handling Logic

07

Asynchronous Engineering

- 7.1 Batch Apex Logic
- 7.2 Future & Queueable Architecture
- 7.3 Scheduled Logic

08

Frontend Architecture: LWC

- 8.1 Modern Web Standards
- 8.2 Reactive Property Logic
- 8.3 Event Architecture

09

Integration Logic: APIs

9.1 REST & SOAP Architecture

9.2 Authentication Logic

9.3 Callout Governance

10

Data Migration Architecture

10.1 ETL Processes

10.2 Bulk Data Logic

10.3 Governance & Cleanup

11

Deployment Governance (DevOps)

11.1 Metadata Logic

11.2 SFDX & CLI Architecture

11.3 Change Management

12

Future Frontiers: AI & Einstein

12.1 Predictive Intelligence

12.2 Generative AI Logic

WHY CHOOSE EDLANX

01 Industry-Ready Curriculum

We move beyond basic data entry to bridge the gap between "point-and-click" admin tasks and high-level ecosystem engineering. Our CRM Architecture syllabus is a deep immersion into multi-tenant logic, Apex framework design, and the structural automation required by global enterprises.

02 Real-Time Corporate Exposure

Step into a high-performance professional environment at our Bangalore Operational Center. At Edlanx, you won't just study; you will be treated as a Salesforce Consultant, working within real organizational sandboxes to architect complex flows, manage data migrations, and build custom Lightning components.

03 Mentorship & Continuous Assessment

Your growth is guided by senior CRM Architects and Salesforce Leads through structured mentoring and rigorous performance evaluations. We focus on developing your ability to solve complex governor-limit hurdles and structural security vulnerabilities with the precision required for production environments.

04 Skill Mastery & Performance Incentives

Master industry-standard tools like VS Code, SFDX, and Data Loader while learning essential professional competencies. We believe in experiential learning and reward architectural breakthroughs with performance-based stipends, ensuring you remain driven toward ecosystem mastery.

05 Global Career Readiness

We enhance your employability by focusing on the complete Salesforce Lifecycle, from initial requirements gathering to CI/CD deployment. Our career guidance includes technical resume engineering and mock "Solution Design" sessions designed to help you secure elite roles in Cloud Consulting and Business Technology.

06 Collaborative Engineering Community

Join a supportive culture built on transparency, integrity, and disciplined professional ethics. You will learn to lead a development "sprint," collaborate across various cloud domains, and grow your network within an elite community of admins, developers, and mentors.

07 Verified Professional Certifications

At Edlanx, we don't just issue certificates for attendance; we award them based on verified learning, real-world performance, and practical outcomes. Our credentials are proof of your industry-ready skills and are recognized by institutions and recruiters worldwide.

We provide four distinct levels of certification:

- **Internship Completion Certificate:** Validates your exposure to professional work culture, verified internship hours, and task-based mentorship.
 - **Project Completion Certificate:** Proof of your hands-on implementation and problem-solving skills in real-world industry projects.
 - **Training Completion Certificate:** Issued upon mastering our industry-aligned curriculum and passing skill-based assessments.
 - **Certificate of Excellence:** A prestigious award reserved for top-performing candidates who demonstrate an advanced understanding.
-

Why This Journey Matters

- **Portfolio-Ready** Every complex Flow you build and every Apex Trigger you engineer at Edlanx serves as a live demonstration of your ability to solve high-scale business problems.
- **Global Network** Gain exclusive access to the Edlanx alumni community and industry mentors leading Salesforce implementations at global tech giants and consulting firms.
- **Career Excellence** We move beyond simple admin tasks to provide the technical resume engineering and solution-design skills needed to command respect in the enterprise cloud market.

This course is a living ecosystem. We constantly update our curriculum to reflect the latest shifts in Microservices, Cloud-Native Scalability, and Advanced System Design. Your success is our shared mission.

DIRECT MENTORSHIP

Navigating a multi-tenant cloud environment requires structural precision. Whether you are hitting a Governor Limit, debugging a Lightning Web Component, or architecting a complex security model, our senior CRM Architects are available to provide the direct, technical feedback needed to ensure your solutions are production-ready.
