

SAP FICO

Engineering the Structural Logic of SAP FICO & Enterprise Value

A project-first certification designed to master Financial Accounting, Controlling logic, and the structural engineering of integrated enterprise systems.

THE EDLANX METHODOLOGY

OUR SAP FICO PHILOSOPHY

At Edlanx, we don't just teach "accounting software"; we cultivate a fiscal-structure mindset. Our program is a deep dive into how global enterprises maintain financial transparency through integrated logic. We believe in Audit Integrity — moving beyond basic data entry to build robust, automated financial environments that ensure real-time visibility and strategic control over complex corporate structures.

THE FOUR PILLARS OF MASTERY

-  **General Ledger Logic** Master the core architecture of the Chart of Accounts and fiscal year variants.
-  **Sub-ledger Engineering** Learn the structural logic of Accounts Payable and Receivable to manage global cash flows.
-  **Cost Accounting Logic** Understand the engineering of Cost Centers, Profit Centers, and Internal Orders for internal transparency.
-  **Integration Architecture** Bring your financial system to life by mastering the structural link between FICO, Material Management (MM), and Sales & Distribution (SD).

Table of Contents

Program Overview

The Edlanx Methodology

Our Development Philosophy

The Edlanx Advantage

01

The FICO Blueprint: Organizational Structure

1.1 Company Code Logic

1.2 Global Mapping

02

General Ledger Architecture

2.1 Chart of Accounts Logic

2.2 Master Data Integrity

2.3 Document Control Architecture

2.4 Posting Logic & Retained Earnings

03

Accounts Payable Engineering

3.1 Vendor Master Logic

3.2 Automatic Payment Architecture (APP)

3.3 Reconciliation Logic

3.4 Invoice Verification & Posting

3.5 Tolerance & Payment Block Logic

3.6 Partial & Residual Payment Logic

04

Accounts Receivable Architecture

4.1 Customer Master Logic

4.2 Dunning Engineering

4.3 Incoming Payment Logic

05

Asset Accounting Logic

5.1 Asset Class Architecture

5.2 Valuation Logic

06

Bank Accounting Architecture

6.1 House Bank Logic

6.2 EBS Architecture (Electronic Bank Statement)

6.3 Cash Management & Liquidity Logic

6.4 Check Management Engineering

6.5 Petty Cash Logic (Cash Journal)

6.6 Bank Communication Management (BCM)

6.7 Multi-Currency Revaluation Logic

07

Cost Element & Cost Center Architecture

7.1 Controlling Logic

7.2 Cost Center Blueprint

7.3 Allocation Architecture

08

Profit Center Engineering

8.1 Segment Reporting Logic

8.2 Profit Center Hierarchy

8.3 Transfer Pricing Logic

09

Internal Order Logic

9.1 Project Tracking Architecture

9.2 Settlement Logic

9.3 Budget Governance

10

Integration Architecture: FI-MM & FI-SD

10.1 Procurement Integration

10.2 Sales Integration

10.3 Automatic Account Determination

11

Taxation & Closing Governance

11.1 Taxation Logic

11.2 Month-End Architecture

11.3 Year-End Closing Logic

12

Future Frontiers: SAP S/4HANA Finance

12.1 Universal Journal Logic

12.1 Universal Journal Logic

WHY CHOOSE EDLANX

01 Industry-Ready Curriculum

We move beyond basic ledger entries to bridge the gap between academic accounting and high-level enterprise resource planning. Our Financial Architecture syllabus is a deep immersion into SAP S/4HANA logic, multi-module integration (MM/SD), and the structural financial controls required by Fortune 500 companies.

02 Real-Time Corporate Exposure

Step into a high-performance professional environment at our Bangalore Operational Center. At Edlanx, you won't just study theory; you will be treated as an SAP Consultant, working within real organizational landscapes to configure company codes, manage asset lifecycles, and architect global payment runs.

03 Mentorship & Continuous Assessment

Your growth is guided by senior SAP FICO Architects and Financial Leads through structured mentoring and rigorous performance evaluations. We focus on developing your ability to solve complex reconciliation hurdles and structural configuration errors with the precision required for live production environments.

04 Skill Mastery & Performance Incentives

Master industry-standard tools and SAP GUI/Fiori interfaces while learning essential professional competencies. We believe in experiential learning and reward innovative solution designs with performance-based stipends, ensuring you remain driven toward enterprise mastery.

05 Global Career Readiness

We enhance your employability by focusing on the complete SAP Implementation Lifecycle, from "As-Is" analysis to "To-Be" blueprinting and final Go-Live. Our career guidance includes technical resume engineering and mock "Client Requirement" sessions designed to help you secure elite roles in Global Taxation and ERP Consulting.

06 Collaborative Engineering Community

Join a supportive culture built on transparency, integrity, and disciplined professional ethics. You will learn to lead a configuration "sprint," collaborate across various enterprise domains, and grow your network within an elite community of finance professionals, auditors, and mentors.

07 Verified Professional Certifications

At Edlanx, we don't just issue certificates for attendance; we award them based on verified learning, real-world performance, and practical outcomes. Our credentials are proof of your industry-ready skills and are recognized by institutions and recruiters worldwide.

We provide four distinct levels of certification:

- **Internship Completion Certificate:** Validates your exposure to professional work culture, verified internship hours, and task-based mentorship.
 - **Project Completion Certificate:** Proof of your hands-on implementation and problem-solving skills in real-world industry projects.
 - **Training Completion Certificate:** Issued upon mastering our industry-aligned curriculum and passing skill-based assessments.
 - **Certificate of Excellence:** A prestigious award reserved for top-performing candidates who demonstrate an advanced understanding.
-

Why This Journey Matters

-  **Portfolio-Ready** Every Company Code you configure and every integration bridge (FI-MM/SD) you engineer at Edlanx serves as a live, auditable demonstration of your ability to manage global enterprise value.
-  **Global Network** Gain exclusive access to the Edlanx alumni community and industry mentors leading SAP implementations at top-tier consulting firms and Fortune 500 corporations.
-  **Career Excellence** We move beyond basic accounting to provide the technical resume engineering and "Blueprint Design" skills needed to lead digital finance transformations in the S/4HANA era.

This course is a living ecosystem. We constantly update our curriculum to reflect the latest shifts in S/4HANA Finance, Global Taxation Logic, and Central Finance Architecture. Your success is our shared mission.

DIRECT MENTORSHIP

Navigating an enterprise financial stack requires absolute precision. Whether you are debugging a reconciliation error, optimizing a costing run, or architecting a multi-national company code structure, our senior SAP FICO Architects are available to provide the direct, technical feedback needed to ensure your systems are audit-ready.
